REPORTED EXPRESSLY FOR THE DAILY STATE SENTINEL.

Noon Reports.

From New York. New York, August 3 .- The Herald's Washington dispatch gives the following details of the fight on Saturday:

Buford's cavalry crossed Rappahannock Ford at 9 o'clock yesterday morning. Our force was composed of the following cavalry regiments: The 8th New York, 3d Virginia, 2d United States, 6th Pennsylvania, 5th United States, 1st United Pennsylvania. They crossed about half a mile above the railroad station. The object of the expedition was to ascertain the exact position of the enemy on the railroad line toward Culpepper and the amount of force they had disposed to dispute =

any crossing which we might attempt. The enemy's cavalry was encountered half a mile from the Ford It was a portion of Stuart's LIVERY STABLE. cavalry, and consisted of Jones' and Hampton's brigades, with the following regiments: The 1st and the Jefferson Davis legion. Our cavalry Glenn's Block, Indianapolis, ing until a point was reached about one and a boarded by the week, day or meal. half miles this side of Culpepper, when the ene my's cavalry fell back on infantry supports. We were then obliged to fall back, after a brisk fight with the enemy's infantry and cavalry, the rebels outnumbering us two to one after they had outnumbering us two to one after they had To Shippers of Tallow, Lard, Grease, ports came to their assistance.

Our loss in the fight near Culpepper was four killel and 66 wounded. The batter have arrived here, and are in the Douglas hospital.

and have arrived here. Rebel prisoners in our hands say many of their dead lay upon the field near Culpepper, and their Our cavalry under Buford made three success-

ful charges on the enemy. A corps of infantry crossed the Rappahannock and was in a position to render Buford efficient

According to intelligent prisoners here the rebel force is so much scattered along the many fords of the Rappahannock, watching our movements, that no general engagement is imminent at present Per contra, our Union Jeffersonville and Louisville mail.... 7:00 P. About ten days ago some of Col. Baker's detective force arrested, at Brentsville, a party en route for Richmond, upon whom was found some very important documents from this city, addressed to Jeff Davis, as President of the Confederate States. Among them were accurate maps of all our fortifications and detenses of this city, and a description of the character of the works, number of guns in each, and the strength of their garrisons; also a statement that the rolls would be forwarded by a different chan nel. It is not known what rolls were alluded to. About midnight last night, fire was communicated to the have in the Government sheds and ice house near the monument, by an incendiary. About 4,500 bales of hay and 1,000 tons of ice were destroyed. The fire extended to the adjacent stables. All the movable property, including the horses, was saved. The progress of the fire was arrested by pulling down portions of the buildings

The Port Royal Free South says Savannah is deserted of troops. Several regiments had been sent to the relief of Vicksburg before the Charleston demonstration, and since the latter event three regiments of infantry and Col Anderson's artillery, numbering twenty four brass 12-pound ers, have been sent via Augusta, to Charleston, leaving for the defense of the city but 900 caval ry, 300 infantry and a battery of artillery. The people of the city thus left with batteries and guns, but no troops to make them available. have become greatly alarmed lest we should capture Savannah They have been for the last F. S. A private letter received in this city, dated the 1,554 I went yesterday to Block Island and made a reconnoissance from the top of the tallest tree on the island. I saw from my elevated position that the rebels were erecting a line of batteries and

building rifle pits almost the entire distance from Fort Johnson to Secessionville, along the river. Block Island is between James and Morris Islands, distant from the former 1,000 vards.

From St. Louis. Sr. Louis, August 3 - Major General Blair and several of his staff arrived here last night from Vicksburg. He was warmly welcomed by a large number of his friends and admirers.

MEDICAL.

DR. JOHN BULL'S

The Latest and Most Important Discovery of the Nineteenth Century.

TO MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Materia Medica of the United States, or more favorably known as a pioneer in medical discovery, than that of JOHN BULL, of Louisville, Ky. His inimitable preparation of Sarsaparilla has long stood at the head of the various compounds of that valuable drag. His compound Pectoral of Wild Cherry has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction, attained a reputation as widespread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON, which is the basis of the Bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom i's virtues have been known for more than two hundred years Armed with it, the Indian bids defiance to the most deadly malaria, and handles without fear the most venomous serpents. It is a belief with them that while there is breath left in the body the Cedron is potent to cure, no matter what the disease may be. While Dr. Bull is not prepared to indorse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that, as a remedy and preventive for all diseases arising from exposure either to changes of weather and climate or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long enjoyed

n Central America and the West Indies. In

and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of the Materia Medica that can for a moment bear a comparison with it in this disease. A full account of this wonderful plant may be found in

the eleventh edition of the U.S. Dispensatory, pages 1387 A series of experiments, in which Dr. Bull has been for years engaged, has just been brought to a successful w enabled to offer to the public a combination of Cedron with other improved tonics, the whole proserved in the best quality of copper-distilled B-urbon whisky, which he is confident has no equal in He might furnish a volume of certificates, but the pub-

their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the

CEDRON BITTERS one trial, and you will never use any others. It is not nece-sary to publish a long list of diseases for which the Cedron Bitters are a specific. In all diseases of the STOMACH, BOWELS, KIDNEYS In all affections of the BRAIN depending upon derange-

ment of the Somsch or Bowels In GOUT, KHEUMATISM and NEURALGIA; And in FEVER AND AGUE: It is destined to supersede all other remedies. It not nly cures all these diseases but it prevents them. A wine glass full of the Bitters taken an hour before each meal will obviate the ill effects of the most unhealthy climate and screen the person taking it against disease under the most trying exposure.
